Ø=Þ¨ Violence Detection Report

Report ID: 10739a37-ce31-44e6-b2f6-b2ac241e8114
Time: 2026-02-02T07:17:54.138Z
Status: SUSPICIOUS
Confidence: 85%

Explanation:

The image depicts three individuals in a dynamic physical interaction. One individual is on the ground, while two others are standing. The individual in the blue shirt is seen with a firm grip around the neck/shoulder area of the individual in the white shirt, appearing to restrain them from behind. The individual in the white shirt's posture suggests an attempt to struggle or resist this hold, as their body is tensed and arms are raised. The individual on the ground is looking up at the interaction, not appearing to be in

immediate distress from a fall, but observing the scuffle. While the facial expression of the individual in the blue shirt shows a slight smile, which could suggest playfulness or a staged scenario, the physical actions of restraint and potential struggle are consistent with a physical altercation or an intervention to prevent one. Given the clear physical engagement, the presence of a restraining hold, and one person on the ground, the situation is classified as SUSPICIOUS with a high confidence for potential physical violence, warranting further investigation in a real-world surveillance scenario.
