Ø=Þ¨ Violence Detection Report

Report ID: 544b95b2-bb2d-48f5-b6cb-17b9cd8e890f
Time: 2026-02-05T07:16:27.109Z
Status: SUSPICIOUS
Confidence: 85%

Explanation:

Three males are observed in close physical interaction. One male in a yellow shirt is seated on the ground, looking up towards the other two. Another male in a blue shirt is actively grappling or restraining the male in a white shirt from behind, with his arm around the other's neck/shoulder area and holding his arm. The posture of the male in the white shirt suggests he is being held or is attempting to free himself, leaning forward in a somewhat compromised position. While the facial expression of the male in the blue

shirt appears more playful or mischievous than overtly aggressive, the forceful physical contact, especially with one person on the ground and another being restrained, creates a suspicious scenario that could be interpreted as a physical scuffle or potential assault. As a surveillance analyst, any unconsensual or forceful physical interaction that could lead to injury or indicate a fight warrants a 'SUSPICIOUS' classification and 'Physical Violence' threat type for further investigation, despite the ambiguity of intent.
