Ø=Þ¨ Violence Detection Report

Report ID: c9f80909-9ccf-4698-ba12-8bc1d3cd7473
Time: 2026-02-05T13:10:22.899Z
Status: SUSPICIOUS
Confidence: 85%

Explanation:

The image depicts a physical interaction between three individuals. One person in a dark blue shirt has a strong hold on the arm and shoulder of another person in a white shirt. The person in the white shirt is leaning forward, actively engaged in the hold. A third person in a yellow shirt is on the ground observing. While there are no clear indicators of extreme violence such as punching, kicking, or visible injuries, the sustained and firm physical contact, resembling a grapple or hold, is concerning. The expressions of the

individuals are ambiguous; the person in the blue shirt shows a slight smile or grimace, and the person in the white shirt appears focused rather than clearly distressed or in pain. From a surveillance standpoint, such physical engagement, even if potentially staged or part of a recreational activity (like wrestling or martial arts demonstration), is classified as 'SUSPICIOUS' due to the potential for escalation or misinterpretation as an assault. The 'Physical Violence' threat type is assigned because physical holds and grapples fall under this category, even if the intent isn't definitively hostile based solely on visual cues. Further investigation or context would be required to determine the true nature of the interaction.
